Color Chip Chart

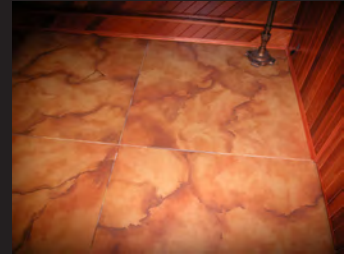

Newlook's Concrete Stains are *The Original Concrete Maintenance System*™ and are available in two varieties; Opaque Solid Color and Translucent Color Enhancer. Newlook's stains are water-based, modified polymer technologies that are Environmentally Green and VOC compliant in California. For over 19 years, Newlook is the choice to restore, beautify and maintain concrete to look new and beautiful again. Newlook's Solid Color Stains set the industry standard for true solid color concrete stain that looks like integral colored concrete.

In addition to Newlook's 80 standard colors, your contractors and customers can also choose Newlook Stains off of the following manufacturer color hardener charts for the the same price and turn around

- Brickform - Scofield - QC
- Davis - Proline

Color matching is also available. See Newlook for ordering details.

Applications: Newlook is ideal for driveways, garage floors, pool decks, offices, restaurants, hotels, theme parks, shopping malls, schools, and other high traffic areas.
