

The ORIGINAL
Concrete Color
Maintenance System

EcoAcid™

EcoAcid™ is a water-based, non-corrosive concrete cleaning and etching compound. It is a safer, non-fuming alternative to harsh acids, such as muriatic acid. EcoAcid is environmentally friendly, non-toxic, non-hazardous and safely prepares concrete surfaces by opening up the pores for effective staining with NewLook Concrete Color Stains or any other penetrating, concrete color stain. Use as a light acid wash on all new concrete. Read the respective Technical Information Sheet for more information.

PREPARATION

Features & Benefits:

- Water based, non flammable
- No neutralization required (as with muriatic acid)
- Safe alternative to muriatic acid
- Non - ozone depleting/ Low order
- Easily applied with a broom or pump sprayer
- Environmentally friendly
- Does not hurt vegetation when diluted with water

Sizes & Coverage:

- Available in 16 oz., 1 gallon and 5 gallon containers
- Treats approximately 200 square feet (19 square meters) per gallon

Applications:

- RESIDENTIAL
- Ideal for pool decks!
- Driveways
- Patios
- Walkways
- COMMERCIAL
- Convention Centers
- Sidewalks
- Theme parks
- Government property

Working Tips & Keys to Success:

- Leave on the concrete 15 to 30 Minutes - broom occasionally to keep EcoAcid active
- Use NewLook QuickEtch™ for profiling hard troweled, dense or hardened surfaces
- In hot, sunny, or windy conditions the product may dry prematurely; apply additional EcoAcid to keep active
